Good Design Award – Outstanding Design

What is the secret of a successful model? In the case of our Piano V 115 Modern, several factors come together: timeless design, reliable quality – and a hint of nostalgia. This is the new interpretation of our classic model which already enjoyed great popularity during the years of the German economic miracle. It is great when good things last! Annually, the Chicago Athenaeum: Museum of Architecture and Design confers the Good Design Award to honor contemporary and extraordinary innovative design. The award can be traced back to the Good Design Program, which was launched in 1950 with the participation of outstanding designers like Eero Saarinen or Charles and Ray Eames.
